School Children Must Be Vaccinated—Licenses Increased—Bieyele Laws.

City Attorney English is writing three new ordinances that will be submitted to the city fathers at the next meeting of the council, and as all the aldermen are heartly in favor of their passage, it is more than probable that they will pass the council without objection. The first and most important ordinance, relative to the vaccination of school children, says all the children must have a certificate from some physician showing that they have been vaccinated before they will be permitted to attend school this term. The Anaconda schools for the season of 1893-'94 open on Oct. 2, which gives all perents whose children are not vaccinated one week's time in which to comply with the new law of the board of health. The law will be strictly enforced, and not one child will be allowed to enter any school in the city without being vaccinated. There may be some who will object to paying out money to doctors for vaccination, especially so when there is no smallpox in the city and apparently no danger of it breaking out again, but these Anaconda schools for the season of 1893-94
open on Oct. 2, which gives all parents
whose children are not vaccinated one
week's time in which to comply with the
new law of the board of health. The law
will be strictly enforced, and not one child
will be allowed to enter any school in the
city without being vaccinated. There may
be some who will object to paying out
money to dectors for vaccination, especially so when there is no smallpox in the
city and apparently no danger of
it breaking out again, but these
people should remember that this precaution on the part of the city officials and
school trustees is taken to protect all the ol trustees is taken to protect all the people of the city. Ninety per cent. of our people who are precautious must be pro-tected against the carelessness of the re-maining one per cent. If there are any parents who feel they cannot affort to pay the regular doctors' fees for vaccination it is more than likely that the board of health will make arrangements similar to those

will make arrangements similar to those adopted during the reign of the dreaded disease in this city—hire two physicians for a few days to vaccinate at small cost

to parents. As the schools start up one month late this year the school trustees are anxious for the parents to see to it that their children of school age are vaccinated before next Monday, that the pupils may

before next Monday, that the pupils may make up for lost time by being enrolled the first day.

The second ordinance to be considered at the next meeting of the council will be one raising the city licenses, as it has been found absolutely necessary, in order to meet the running expenses of the city government, that the licenses be increased all along the line. In some cases the old licenses will be doubled, in others increased, and one or two industries will be compelled to pay something into the treasury for the first time. For instance, the saloons now pay City Treasurer Delury &I per quarter, under the new law they will have to pungle up \$31; professional men, heretofore paid \$2 per quarter, but hereafter they have to dig up \$3; livery stable licenses are raised from \$5 to \$10; all retail dealers, restaurants and hotels will pay double the amount of their old licenses; the water company is taxed \$30 a year instead of \$50 as of old; telephone and telegraph companies must pay 50 cents for each instrument or phone in use, instead of \$50 as of old; telephone and telegraph companies must pay 50 cents for each instrument or phone in use, instead of \$50 as of old; telephone and telegraph companies day license since it was organized, but under the new law it will pay \$25 every quarter into the city treasury.

The third ordinance now in construction by the city attorney, and one that is causing the usually cheerful attorney considerable worry and tribulation, covers bleyclists, their wheels and the rate of speed of the same allowable on the streets of the city; whether or not they shall carry a lantern and bell while flying through the public highways and biways during the evening, and other rules and regulations that will be of intense interest to the Anaconda wheelmen. The ordinance will be acted on at the next council meeting when a lobby from the Copper City Wheelmen will be on hand to see that the law is all right before they will permit their brother member, Alderman Hasley, to vote for it.

About Ansconda Dudes Among the curios brought back from the effete East by George Tighe, Arthur Needham and Joe Walsh, are three new suits of clothes, with, what Joe Walsh says is the latest thing out, a bell-skirt frock coat. The coats arrived yeterday and a few close friends were permitted to take a look at them. They are made very take a look at them. They are made very long in the back and taper off with a to a fashionable dressmaker, giving a perfect bell-skirt effect to the garment. The above mentioned gentlemen threaten to don their bell-skirts and appear in public with the same to-day. Just imagine Anaconda's married men telling their respective wives to get out their bell-skirts Saturday night in order that they may be in time for church Sunday mornmay be in time for church Sunday morning. How funny it would sound to hear Major Maginnis and George Wellcome talking across the table in the Montana dining room about their bell-skirts. It is bad enough to have the golden west snubbed by the gold sharks of the East, but when our handsome Montanans take to rearing bell-skirt frocks, it is about time to expect the worst.

The matter of harmony in colors in women's dress was peculiarly illustrated on the street yesterday in the presence of a reporter. A lady, charmingly gowned in navy blue, was going down town, and ber pet dog, which was a small, handsome brown spaniel, appeared anxious to fol-low her. She was just as anxious that he low her. She was just as anxious that he should not go, and when asked by an acquaintance why she objected to the company of so pretty a dog, replied. "Oh, how ridiculous; the idea of my being dressed in blue and taking a brewn dog on a shoping tour!" What is the country coming to, anyway?

BASEBALL YESTERDAY. A Brilliant Game Played by Annoon and Carre I Kids

and Carre I Kids

The game of ball yesterday afternoon between the Copper City Horse Shoes and the Carroll clubs attracted a large crowd to the grounds north of the depot. At the end of the ninth inning the score stood 49 to 27 in favor of the Anaconda kids. There were several brilliant plays made on both sides, among them being a double play, unassisted, by Buck of the Carrolls in the eighth inning; three double plays all told by the Carroll club, and George Lapoint's home run drive, bringing in two men ahead of him. Cleary knocked out a two-bagger, but was put out in trying to make
